The War Today..

Anesthetizing Japan

BY DE WITT MACKENZIE
AP Foreign News Analyst

OUR AERIAL bombardment of Japan has progressed far enough so we can say with assurance that, between this increasingly intensive bombing and the Allied blockade, the Mikado's home islands could be expected prior to invasion—if our high command should decide to pursue such tactics.

One suspects that the Allies intend to anesthetize Nippon so far as possible before undertaking amphibious operations and thus reduce our casualties. Certainly invasion will be a nasty job unless the islands are thoroughly stunned in advance. Apropos of this, Tokyo claims that a chain of powerful underground fortresses, girdling the entire coastline of the main island, is being rushed to completion.

I don't believe we want to dispute that claim, for it may easily be true. However, three or four months of such bombing as we carried out yesterday could make a mighty difference in the efficiency of coastal defenses.

We are just beginning to get along in a big way with our bombing of Japan proper, and things are moving well. The Tokyo radio admits that 4,900,000 Japanese were killed, injured or made homeless by American bombing of Tokyo, Osaka, Yokohama, Nagoya and Kobe up to May 31. The broadcast said that 1,135,000 homes were destroyed in these cities.

What's more to the point, as long as the middle of May, Maj. Gen. Curtis LeMay, chief of the 21st bomber command, said that the B-29s had knocked out, or nearly knocked out, war production in these key cities of Japan. That's a terrific blow to the Mikado's fighting machine.

Some 26 of Japan's most important industrial cities have now been deluged with incendiary bombs.

Pilots Celebrate Fourth Of July By Bombing Japs

GUAM, July 5.—Approximately 800 American planes set off Fourth of July fires and explosions in Japan, capped by an hour-long radio challenge of fighters circling three Tokyo airfields for the Japanese air force to come up for battle. The dare went unanswered.

Fires in four Japanese cities burned so brightly they could be seen simultaneously by returning B-29 pilots.

Two Japanese destroyers were hit in the Yellow sea. Six Tokyo airfields were ripped. Everything

END CONQUEST OF PHILIPPINES

Pacific Sector's Complete Liberation Announced By MacArthur

(By United Press)
MANILA, July 5.—All the Philippine islands have been won back in "the greatest disaster ever sustained by Japanese arms," Gen. Douglas MacArthur proudly proclaimed today and their 115,600 square miles are being transformed into bases "comparable to the British Isles" to spur the march on Tokyo.

In 250 days of campaigning, 17 American divisions whipped 23 Japanese divisions in "one of the rare instances when... a ground force superior in numbers was entirely destroyed by a numerically inferior opponent."

Roughly 426,000 Japanese were slaughtered, including such hated outcasts as the 16th Imperial division which tortured American and Filipino prisoners in the "death march" after the 1942 fall of Bataan.

Accomplishments Cited

A spokesman estimated possibly 30,000 Japanese survive in all the archipelago, cut up into groups and driven into mountains where they are reduced to guerrilla activity.

Delivery of the "cripping blow" to Japan's army, navy and air force.

Severance of the enemy's sprawling, stolen empire so the north and south halves could "be enveloped and attacked in turn," while a sea-air blockade prevented raw materials from reaching Japan, or reinforcements from reaching the East Indies.

Liberation of "our captured officers and men and our internees held in the Philippines."

American ground and air personnel casualties up to July 1 were listed as 11,921 killed, 410 missing and 42,569 wounded—a total of 54,891.

Gen. MacArthur stressed as "accomplished" goals of the invasion: Acquisition of great land-sea air bases "for future operations" comparable to the role played by the British Isles against Germany.

Collapse of the "imperial concept of a greater east Asia co-prosperity sphere and the reintroduction of democracy in the Far East."

Sgt. Wells, First Salem Man Missing In War, Now Dead

First Sgt. Noble W. Wells, the first Salem man to be reported missing in action in this war, is dead, his mother, Mrs. Lydia O. Wells, of the Goshen road, learned today.

The Marine, originally reported missing in action on Corregidor May 12, 1942, was later known to be a prisoner of the Japanese. Today the Marine commandant notified Mrs. Wells that "delayed information has revealed that Sgt. Wells lost his life Oct. 24, 1944, when a ship on which he was being transferred to the Philippines was sunk."

The telegram said Sgt. Wells' name would be carried on Marine corps rolls as having been "killed in action in the performance of his duties and in the service of his country."

The only communication Mrs. Wells had received from her son since she learned he was a prisoner was a postcard, dated August, 1943, when he told his mother he was all right and well.

Since then no word had been received from him. His wife is believed to be in Shanghai, China.

Another Salem prisoner of the Japs, Sgt. Charles R. Taylor, son of Mr. and Mrs. C. H. Taylor of the Benton road, met similar fate

Newsman Will Be Barred From 'Big Three' Sessions

WASHINGTON, July 5.—The White House announced today that newspapermen will not be permitted to cover actual sessions of the forthcoming Big Three conference in the Berlin area.

He gave no intimation of a date for the coming meeting between President Truman, Prime Minister Churchill and Marshal Stalin.

The fact that the three will meet "in the Berlin area" was announced previously.

16,700 Striking Rubber Workers Ordered To Jobs By Friday

(By Associated Press)

AKRON, July 5.—The Navy seized the five strike-paralyzed plants of the Goodyear Tire & Rubber Co. at 11:15 a. m. today, under executive order by President Truman, and ordered 16,700 CIO-United Rubber Workers back to their jobs tomorrow.

Capt. H. K. Clark, USNR, took command of the sprawling rubber plants, and moved swiftly to resume production of war vital airplane, truck and other tires which had been halted during the shutdown which entered its 20th day today.

Capt. Clark, in a statement given newsmen, ordered the strikers to resume work on the regular Friday shifts or "become subject to all proper and legal sanctions and measures available."

Goodyear officials said the strike, caused by breakdown or negotiations between the firm and the union on 32 wage, hour and working condition provisions, had caused a production loss of 16,000 tires daily, along with thousands of other items used by the armed services.

Cheered By Pickets

Within 15 minutes after President Truman issued his seizure order in Washington, Capt. Clark and a staff of about 20 men arrived at the main gate of the Goodyear plants to take over in the name of the government.

The Navy men were cheered by pickets as they passed through the gate into the office of Edward J. Thomas, president of Goodyear. Capt. Clark is head of the plants emergency management in the office of the secretary of the navy.

Following a conference between Capt. Clark and President Thomas, the naval staff posted notices at gates and on buildings, ordering the striking employees back on the job on regular shifts Friday.

The placards said: "This is to notify you that the plants and facilities of the Goodyear Tire & Rubber Co. in Akron are now in possession and being operated by the undersigned as officer in charge pursuant to executive order of the President of the United States."

"All plants and departments will be re-opened at the regular starting hour Friday morning, July 6. Shifts other than the first will start Friday, July 6 at the hours in effect prior to the strike."

"You are directed to report for work at your proper shift hour tomorrow, Friday, July 6. Failure to report will subject you to all proper and legal sanctions and measures available."

The notices were signed "Capt. H. K. Clark, USNR."

The Goodyear strike began June 17 following a breakdown of company-union negotiations on 32 wage, hour and working condition grievances. The workers left their jobs at the Firestone rubber plant Sunday when contract negotiations collapsed.

HOUSE GROUP O. K.'S UNIVERSAL SERVICE

WASHINGTON, July 5.—The house post-war military policy committee today endorsed the "broad principle" of universal military training in peacetime.

The committee recommended Congress enact legislation to put the program into effect, and that the action be taken during the present session.

The recommendation was approved by 16 of the 22 members. Committee members said only Rep. Bradley (D. Pa.), opposed the recommendation, although five others did not sign the formal report.

The names of the five non-signers were not disclosed by Chairman Woodrum (D. Va.).

LEAVES FROM A WAR CORRESPONDENT'S NOTEBOOK

by Hal Boyle

BY DON WHITEHEAD (Substituting for Hal Boyle)

FRANKFURT ON THE MAIN — The machinery under which the United States, Russia, Britain and France will govern beaten Germany is beginning to roll.

Already the four zones of occupation have been agreed upon and are being occupied by troops, technicians and political specialists of each nation with a minimum of friction.

Officially this Allied government of Germany will become operative with the first formal meeting in Berlin of the Control Council, composed of commanders Gen. Eisenhower, Marshal G. K. Zhukov, Field Marshal Montgomery and Gen. De Lattre De Tassigny.

Barometer of Future
Correspondents who go to Berlin will witness a historic phase of cooperation between the Allied powers—one which many American officers see as a barometer of future relations.

"If this cooperative plan of government fails," one officer said, "it breaks down into old nationalistic lines, then we will have witnessed one of the great tragedies of history."

He added: "Those who have worked with them feel confident the Russians will do everything they can to make the plan work."

It is intended that policies and government structure be uniform in all zones of occupation as decided by the Control Council and carried out by the council's coordinating committee of four.

At the top is the Control Council composed of the four commanders. Each of them has a representative on the coordinating committee and each committee member has his control staff of 12 divisions—transport, politics, economics, finance, reparations, deliveries and restitution; army ground forces; air and navy; internal affairs; communications; legal; prisoners of war and displaced persons, and manpower.

These divisions are being staffed by military and civilian experts and many of them are in operation. Close cooperation is anticipated between the divisions of the various nations in working out technical details of government.

Announcement of overall policy of the Control Council is expected to be made either at the Berlin meeting of President Truman, Prime Minister Churchill and Generalissimo Stalin, or at the first meeting of the council.

Agreement on policy in dealing with Germany will be on a unanimous basis in the Control Council. Should there be disagreement on large issues, they will be placed before the respective governments for decision.

Much of the groundwork was laid on the basis of intelligence reports from Europe so that the Americans could start in Germany with a minimum of delay.

Lt. Gen. Lucius D. Clay of Georgia, U. S. Civil Affairs administrator in occupied Germany, is Eisenhower's representative on the coordinating committee and is busy getting his divisional staff completed. The coordinating committee may hold its first meeting within the next month.

Gen. Robert E. Lee was president of Washington college, later called Washington and Lee.

Modern Iran began in 1794 with its conquest by Agha Mohammed.

Correspondents Tell of Interesting Island War Happenings

BY BONNIE WILEY

TINIAN — This B-29 base gets more Americanized every day. Now, there's a mattress factory.

Ice cream came shortly after the island was taken from the Japanese in July last year. And it wasn't long before the Seabees, had a complete soda fountain rigged up.

Then homemade washing machines, powered by frantically turning windmills, started appearing. These Seabee contraptions are now available to practically everybody on the island.

But American boys like to sleep comfortably if they can.

The mattress factory was the job of two Seabees: John C. Bunh, carpenter's mate 1/C of Hot Springs, Ark., and Ruel F. Hibert, carpenter's mate 2/C of Garland, Tex.

It was just as if they had invented a better mousetrap. The whole world—of Tinian—soon beat a path to their door. They've softened government issue mattresses for nearly every American on the island.

The mattress softening contraption is a long wooden box (once a bomb crate) set upon a turning device and powered by a Japanese Diesel engine, abandoned on the island. Stuffing is torn from the G. I. mattress, put into the box and the power is turned on. The box contains cylinders with sharp nails for teeth which tear the stuffing apart and fluff it up. A home-made blower sends it whizzing back into the mattress ticking and the job is done.

"If we need additional filler, we use this packing they put around airplane propeller blades in shipping. It fluffs up quite well in our machine," Hibert said.

For the soda fountain, the Seabee inventors used abandoned oxygen tanks from an airplane and a salvaged Japanese pump and pistons to provide the fountain's "fizzer."

The washing machines are usually an oil drum with a plunger in the center, operated by the windmill device.

Cmdr. Paul Falconer of Seneca Falls, N. Y., says:

"There's going to be some revolutionized housekeeping when these boys get home."

The War Today

(Continued from Page 1)

by the giant B-29s. Not only are our bombers seeking out all the manufacturing centers, but are aiming at the so-called "backyard" industries which produce many cheaply built suicide planes. The ports and rail communications will come under increasingly heavy attack as more Allied air-power is available and as Okinawa is developed for big-scale operations.

The outlook for the home islands of Japan is bleak. Daily our raids are demonstrating that Japan is much more vulnerable to bombing than was Germany—and the air attack was one of the prime factors in bringing the Reich to its knees. The paralytic which overtook Nazism will come to Japan much more quickly because of the clumsy construction of most of its cities and towns which succumb to incendiary bombs like tinder. Thus far we have destroyed areas exceeding a total of 117 square miles.

Tokyo spokesmen acknowledge—as well they must—that their country is ill equipped to fight such attacks. However, they say that new fighter planes are being built in underground factories and will provide the answer. Probably they have built some underground factories, but thus far we haven't seen any results which would indicate that underground production is extensive.

Anyway, Japan is going to be slashed to ribbons with bombs—unless she surrenders. Annihilation is the alternative, and one wonders how long the civilian population will be able to stand up under such a rain of death, coupled with the hunger which they face because of the blockade. It's reasonable to believe that, despite their fatalistic fanaticism, they have their cracking point. So things go well with our attack against Japan proper. We should remember, though, that capitulation of Nippon doesn't necessarily mean the surrender of her forces on the continent where she has 2,000,000 men and large resources for making war. That's one of the imponderables.

WE FLEW Without GUNS

XII

I STOOD at the bar in Calcutta's 300 Club drinking a coke while Tony Mercedes polished off one Scotch and soda after another. I was thinking about how we might spend the rest of the afternoon, pending the arrival of Gingiss and Lane in the evening.

"We might take a run out to Six Acre Road," Tony suggested. "You've never met Tangerine and Bitty."

"That's right," I said. "I never have. But I don't like to go to a place like that. Why don't we give 'em a call and have them come into town. We could take them out to dinner and have a few drinks and enjoy ourselves."

"Take 'em out to dinner?" Tony cried. "Are you crazy? Who the hell do you think these gals are—society?"

"No, but they're worth talking to aren't they?" I asked.

"Worth talking to?" Tony was going apoplectic.

I started to laugh, then casually turned to see if the fellow at my left had heard our conversation. Obviously he had, because he was smiling broadly. He was a tall, good-looking lad about 30 to 32 years old, quite obviously Indian but of high birth judging by the regularity of his features, clear brown eyes, long thin face, aquiline nose and strong, chiseled jaw. He was dressed conservatively in black with a kind of white ascot tie wound tightly around his head was a smooth-fitting black silk turban.

The Indian looked us over quickly, still smiling, and then he said to me, "You have more in common with my people than you think. We, too, think conversation has a place in romance." He spoke perfect English by Oxford standards, having a pronounced British accent.

Both Tony's and the Indian's glasses were empty and I signaled the bartender. He came running, saying "Yes, Sahib!" and then, as his glance touched that of the stranger, he bowed deeply and murmured something I didn't understand.

"These shall be on me," the Indian said. "Whatever the gentlemen wish."

I started to protest, but the bartender shot me a look almost of fright as he bowed again and said, "Of course, Your Highness."

The Indian smiled at the startled expressions on Tony and myself, and he bowed very graciously. Then he held out his hand and said, "Jagaddipendra Narayan Bhup Bahadur, Maharajah of Cooch Behar, gentlemen. It is a pleasure to meet you."

Tony and I introduced ourselves and shook hands, and for over an hour the three of us stood

he had heard Gingiss' own heroic account of the Battle of the King's Ducks over Windsor Park, that he promised us some real hunting on one of his own estates in upper India near Tangsawa. "Maybe it won't compare to machine-gunning royal ducks," he laughed, "but I think you'll have some fun. I'll arrange everything for you—elephants

and native guides and guns and all that. It's good hunting country up there, especially for tigers and leopards." He hesitated a moment and then said, "But maybe you'd prefer hunting wild boar? That's wonderful sport, you know."

I didn't know anything of the sort. I had never even seen a wild boar and all I had ever

heard about them was that they usually did all the killing.

"You hunt boar with a spear, you know," the Maharajah went on. "It's really quite thrilling."

Gingiss looked at him with an expression of distaste. "Hell, that's just pig-sticking," he said. "I'd rather bag me a tiger. A man doesn't get a chance like this every

day in his life—and stickin' pigs just ain't glamorous, that's all."

Gingiss' words were weighted with wisdom, so a tiger hunt it was. The Maharajah didn't accompany us, but three days before our leave was up we flew back to Dinjan and were met there by one of the Indian potentate's servants in a luxurious big Buick station wagon. It was

a good hard ride over a difficult jungle road to Vince's hunting lodge at Cooch Behar, and when we arrived there we were dined lavishly in the huge palatial building. In the morning, after a fine big breakfast, we stepped out onto the porch to get our first look at the accommodations of a first-class Indian safari. (To Be Continued)

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with straining and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Mullins Halts Potters 5-4 As Recreation Defeats Leetonia

China Loses On Errors As Old Timers Win In Eighth Inning After Booster Rally

Second round play at Centennial park saw intensive action Tuesday. Mullins whipping the Salem China for the second time this season 5-4 and the Recreation nailing out a rallying Leetonia Booster squad 5-4 after one extra inning.

The defeat again places Mullins as favorite for second round honors after all eight teams have played their first games. Beaten now, besides Leetonia and the China, are the Salem News and the Eagles, Sinclair, Demings and the Tuesday winners are pacing the loop.

The China lost the hard way—via nine errors—and the defeat so riled Dale Ritchie, Potter hurried, that he turned in his resignation and is now seeking a place on another squad. John DeFavero, who caught Ritchie Tuesday, also resigned.

Mullins, behind pretty hurling by seventh, won in eight games and now is on its way to another round title.

The Recs led all the way until the sixth when Leetonia scored one run to make it 3-1. Two

Booster rallies in the seventh forced the game into extra innings and Leetonia added one in the eighth but the Old Timers cornered two markers to win in the same frame.

An innovation in the gradually strengthening Recreation lineup was Bill Pauline on the mound. The lanky veteran was tagged for 13 hits by the Boosters but walked only three and fanned a single man.

Joe Kelley, back in the Rec lineup once again, continued his hitting prowess by slapping out two for four and scoring a run.

Mullins baffled the China in the first frame by scoring a quick two runs on one hit, a sacrifice and two Potter errors. The China went

scoreless until the fourth inning, when hits by Steve Cibula, Joe Kandler and Bruce Cope, coupled with a Mullins error, tallied three runs to give them the lead.

Both Lanney and Ritchie turned in games worth watching. Lanney allowed four China hits, walked three men and fanned one. Ritchie held the hard hitting Mullins team to four hits, walked one man and fanned four.

SALEM LOSES TWO HOLIDAY BATTLES

Wright File Co. of Lisbon Beats Athletics 3-1 and 9-2 Yesterday

The Lisbon Wright File Co. baseball team laced the Salem Athletics twice yesterday, once 3-1 at the Lisbon fairgrounds in the morning and again 9-2 here in the afternoon.

For four innings it looked like Salem might be on their way to a victory in the afternoon game. However, in the fatal fifth, Lisbon crashed through with eight runs on four hits, a hit by pitched ball and two Salem errors. They added one in the seventh.

In the morning contest Salem scored their lone run in the eighth inning, Lisbon cashing in on markers in the seventh frame.
